Hinges and screws hook-shaped in one piece

Technical Instructions

Material : Duroplast.

Hinges : Hinges and screws hook-shaped in one piece.
 Adjusting of the seat height thanks to an adjustable disk on a threaded screw.

Resistance in moist environment : 200 hours in a vapour bath heated at 50°C and with 99% of moisture content. Global immersion in water heated at 65°C during 1 hour. *

Mechanical Resistance : 30 000 lift and release cycles as required by Norm XP D12-207. Static test : 150 kg. Dynamic test : 75 kg for 30 000 cycles. *

Chemical Resistance : Tested to resist sulfamic acid, uric acid, caustic bleaches and other cleaning products available in stores. *

Cleaning : Cleaning with a sponge and with non abrasive cleaning products for toilet seats. It is advised to lift the seat while cleaning the bowl. It is not recommended to use cleaning products containing chlorine, acids and other corrosive chemicals.

Warranty : 2 years
